Call to order, Changes to the agenda, Public comment

Michael Rooney called the meeting to order at 7:01. No agenda changes. No public comment.

Broadband Feasibility Study Presentation

Last May, the Lamoille County Planning Commission (LCPC) applied for and was awarded a grant from the VT Department of Public Service to study the feasibility of fiber broadband deployment in the Lamoille Region. That award enabled the LCPC to partner with Tilson, a broadband consulting firm based out of Portland Maine. Tilson prepared the feasibility study and delivered the presentation. The final report will be delivered to the LCPC by the end of the week.

The presentation was structured into four components: Survey summary, high level design, business case analysis and operating model, and financing strategy. The slide deck presented at the meeting as well as a recording of the meeting are available. Request by contacting Lea Kilvadyova, LCPC Regional Planner at 851-6348 or email lea@lpcvt.org.

Adjourn

Meeting adjourned at 8:36.
