Jeff Tilton moved to approve the consent agenda. Paul Warden seconded. Updates: Stephen Friedman met with the Stowe select board to provide a progress update. He thinks the update went well. Stowe Fiber's buildout seems to be progressing. The select board is still interested to hear other thoughts on underground conduit issue. He reminded them that LFCUD will be standing in line for ARPA funding. Teelah and the other Cambridge members gave updates to the Rotary and Cambridge Economic and Development Boards. Motion passed.

**7:12pm Elmore Partnership-** The Elmore representatives to the NEK CUD are interested in starting a dialogue about possibly dividing the town map into sections that compliment neighboring CUDs. The geography of Elmore supports possibly being a member of multiple CUDs since there are clusters of addresses that are closer to CV/LFCUD/NEK. We need to further investigate: into other towns that have been split in two separate CUDs effectively, exactly how many addresses/where the district borders would be, and restrictions pertaining to state forest land.

**7:42pm Policies Needed-** Tech Security, Remote Work, and Use of Equipment policies, at some point, if we start hiring more employees, we will need these priorities in place. Teelah will create drafts to be reviewed by the board to be presented to the EC on the first meeting in November. Reserve Policy: will table discussion for now. Cyber policy-will be tabled until an actual network exists.

*Brian Evans left the meeting.*
